Serious Parts For Serious Trucks.

Meritor AllFit shock absorbers feature class-leading technology along with unsurpassed service and support. They are designed, engineered and manufactured to meet the needs of today's fleet customers. Meritor AllFit shock absorbers are an ideal choice for today's vehicles equipped with low-friction suspensions that have a higher amount of vertical travel or "roll." While low-friction suspensions minimise highway vibration and improve ride, they also require shocks in order to better control roll. Meritor AllFit shock absorbers meet this demand, delivering a comfortable ride for the driver and providing maximum protection for the cargo.
