PENSKE - TELEMATICS DATA

TERMS OF USE

Your vehicle ("Vehicle") may be equipped with one or more devices that gather information described below regarding the Vehicle and the environment in which it may be operating ("Telematics Information"). The devices may periodically send Telematics Information to Daimler Truck North America LLC ("DTNA/Penske Australia"). Additionally, DTNA/Penske Australia and its dealers may manually retrieve Telematics Information from the devices for the purposes described below.

TELEMATICS INFORMATION WE COLLECT AND WHY WE COLLECT IT

The Telematics Information we collect may include, but is not limited to, information regarding the performance, operation, location, speed, trips, travel history, stop and idle times, fuel consumption, fault codes and diagnostic information, steering and braking performance, air bag deployment and seatbelt use, decelerations, and other information relating to the performance, operation, health and safety of your Vehicle. DTNA/Penske Australia gathers this information in order to improve the performance, operation, health and safety of your Vehicle and other DTNA/Penske Australia vehicles and products, in the following ways, among others:

To enable your subscription services. DTNA/Penske Australia and other third party service providers have developed a variety of applications and services that are now available to you to optimize the performance, use, reliability and safe operation of your Vehicle. These services are enabled by the Telematics Information we receive from your Vehicle and will likely be made more effective in the future by the use of that Telematics Information and similar information we receive from other DTNA/Penske Australia vehicles.

To make your Vehicle safer and to improve its performance. Depending on the type of device installed on your Vehicle, DTNA/Penske Australia may periodically update your Vehicle's on-board software to improve the performance and safe use of the Vehicle. We may need to obtain certain Telematics Information to ensure the effectiveness of these updates.

To monitor and manage the health and efficiency of your Vehicle. Telematics Information from your Vehicle may be used by DTNA/Penske Australia and its affiliates, dealers and service providers to diagnose and resolve problems with your Vehicle more effectively and to help you maintain it.

To improve your customer service experience. Telematics Information may be used by DTNA/Penske Australia and its affiliates, dealers and service providers to provide you a more efficient and effective customer service experience in conjunction with Vehicle service, maintenance, field service campaigns and recalls.

WHAT WE DO WITH TELEMATICS INFORMATION AND WHO WE SHARE IT WITH

DTNA/Penske Australia may use Telematics Information for any purpose allowed by law, including but not limited to using the information for any of the purposes described in this chapter. DTNA/Penske Australia may share Telematics Information with its service providers, affiliates, subsidiaries, dealers and distributors, but only for lawful business purposes. This may include third parties who process information on behalf of DTNA/Penske Australia, third parties who you authorize directly to receive information from us, and law enforcement agencies pursuant to applicable law.

DTNA/Penske Australia may also combine Telematics Information it obtains from your Vehicle with data from others, anonymize and de-identify that aggregated data ("Aggregated Data"), and use and disclose that Aggregated Data and derivatives of it indefinitely and for any purpose whatsoever, including sharing it with third parties for any purpose without restriction. You will not have any rights in any Aggregated Data or any derivatives or proceeds of it. DTNA/Penske Australia will be the exclusive owner of all rights, title and interests in and to all Aggregated Data. DTNA/Penske Australia shall not have any obligation to provide any Aggregated Data to you or to compensate you for any use or disclosure of any Aggregated Data.

The Authorised Dealer will not commence any non-warrantable repairs without prior authorisation from the purchaser.
